

PATENT APPLICATION

9

34. (New) The method of Claim 28 further comprising:
creating a copy of the digital image;
formatting the digital image based on a process characteristic associated with a destination prior to communicating the digital image to the destination; and
renaming the digital image prior to communicating the digital image to the destination.

35. (New) The method of Claim 28 further comprising:
determining plural processes for processing the digital image;
providing a plural process reference external to an image file; and
communicating the plural process reference in association with the digital image;

36. (New) The method of Claim 35 further comprising:
enabling plural processes based on the profile; and
providing a plural processing reference in response to receiving a digital image captured in association with at least one of the processes.

CONCLUSION

Applicant has made an earnest effort to place this case in condition for allowance in light of the amendments set forth above. Applicant respectfully requests reconsideration and allowance of Claims 2-36. Applicant believes no additional fee is due. However, Applicant requests a notice of any additional fees due to be forwarded to the address listed below.
